▤ PROJECT EXPERIENCE

Data Analyst · Ghost Squad
Nedbank Group | Johannesburg, South Africa
📅 *01/02/2021 -* `Current`

Project Overview: The Ghost pipeline is responsible for unsecured lending in Nedbank, namely credit card, personal loan and overdraft. Recently, a new type of unsecured lending is being implemented as part of home loans and is in development. The overall objective is to optimise and make the pipeline and environment more efficient both in being used and monitoring from a business and technical perspective.

Responsibilities: Kishan documented the weekly and monthly process that occurs in the Ghost pipeline into a wholistic document that can be utilised for both business and technical teams to ensure that the processes are described and understood. Kishan is also working on creating a dashboard to allow for data error and data loss analysis.

Analyst · Model Risk Data Discovery and Design
Absa Group Limited | Johannesburg, South Africa
📅 *28/07/2020 - 11/12/2020*

Project Overview: The model risk architecture and processes for credit regulatory reporting are sub-optimal in terms of business efficiencies being realised across the value chain. The project team developed a target state architecture and roadmap identifying opportunities for unlocking sustainable efficiency. Subsequently, the project team took the various stakeholders through various roadshow presentations to gain valuable buy-in on the identified opportunities and created a project charter for the initiatives.

Responsibilities: Kishan was an analyst supporting the team in a variety of manners. In the first phase of the project, Kishan defined various role profiles for stakeholders in the model risk space, mapped out necessary frameworks, policies and standards for a clearer understanding. In the subsequent phase, Kishan assisted in creating a project charter for a tactical journey that will occur in 2021, identifying benefits and associated metrics.
